

Just giving everyone a warning [redacted] that lives at [redacted] a white supremacy group based in Bossier/Shreveport area [redacted] of his meeting not knowing that [redacted] had invited my husband to one rants and how they need to get the race war going. He had seen where the black panthers had demonstrated in Brookhaven Mississippi and said that it is its time. He was telling that he wants to personally kill D. Monterrio Gibson and said he won't miss this time like the other person did. He said was going to have a 1,000 bounty for any black panther member and 5,000 for the leaders. He has already put a hit on the President on the Shreveport gun club Sleep is for the rich gun club and now he is offering a price for the President of the Elmer Pratt Gun Club. He held a knife to a black boy's throat at his house for talking to his daughter so careful of him. Now on to his wife [redacted] she and I have been friends for a while but I didn't know this family was this bad racist. [redacted] is a nurse and has bragged about shooting insulin in to an elderly black mans I.V. and it killed him. After hearing this I'm done with that family and everybody needs to know, she has bragged about when the time comes any black person on her floor won't make it out alive. We need to have the nursing broad aware of her: Louisiana State Nursing Broad 17373 Perkins Rd. Baton Rouge La 70810. (225)755-7500. [redacted] is recruiting young white males into this group and he says he cant wait to get his first kill. Don't even try the police [redacted] uncle who is politically connected has him protected and has gotten out of everything including molesting his very own daughters.
