Nancy do I need to involve the governor and or Dr.B if need be. Jon made the comment about using money you allocated to athletic dept thus far and although signed off on by all could raise negative concerns etc... with this project and others. My fear is he doesn't except all that you and John can allocate even if it is legally signed off on. It's obvious that you and John are tremendous assets for USM and in order for us to get ahead in the game we have to utilize you guys in every way.
