If possible, Brett would like you to say something along the lines of "the investigation (shows to this point) Brett has done nothing wrong and the monies he is paying back for commercials and Psa's is from his own good will".

Just calling to discuss the meeting idea. Feel free to call whenever. Can wait until Monday if that's easier.

Just wanted to tell you I appreciate you talking and helping the last couple of weeks.

Happy to talk any time

I think Brett is working to get some more money sent in. He's had some reporters start

I think Brett is working to get some more money sent in. He's had some reporters start hounding them again. I'm sure they have contacted your office. He's just asking not to be thrown under bus as he is working within the timeline. Hope you are doing well, the professor thing has been quite interesting!
