Governor maybe you could ask the president if he would reach out to some folks

Will do. Have a call into WH now. He is in Europe much of this week but we will get a call back soon.

Cool. Gregory Smith has been very hospitable and will have his support folks with him tomorrow. In the meantime we need to get some investors to get this product selling. Governor can we bring you onboard with ownership now?

Cannot till January 15th. But would love to talk then. This is the type of thing I love to be a part of. Something that save lives...
